

# Gradient Parse

Presentation

# FIR Parser

Parse your FIRs in a matter of seconds with this web app.

# Landing page

localhost:5000

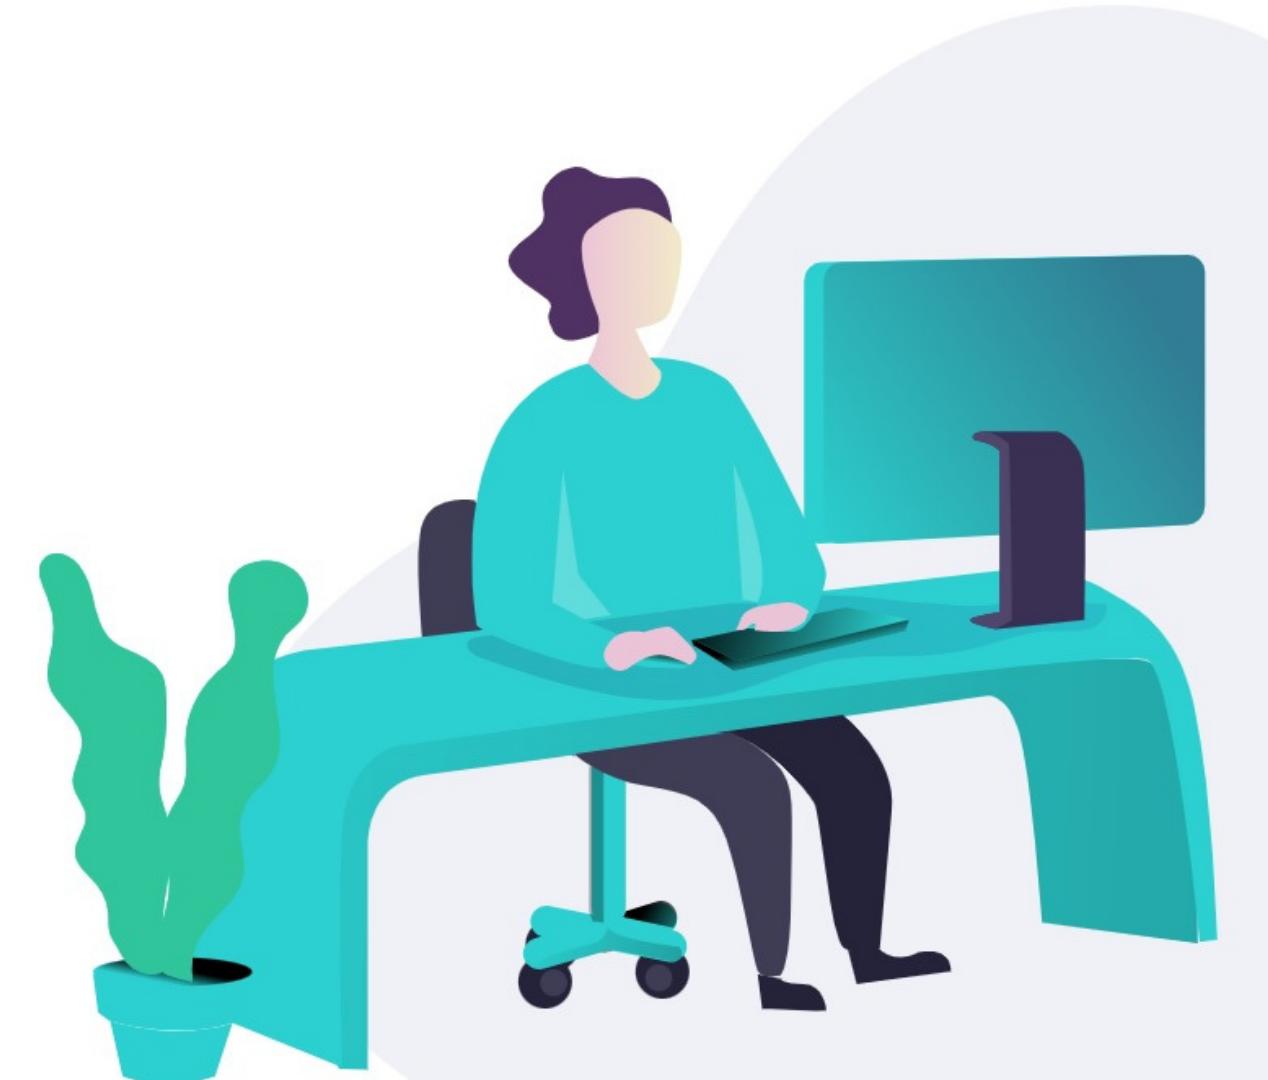

Gradient Parsing

API Github

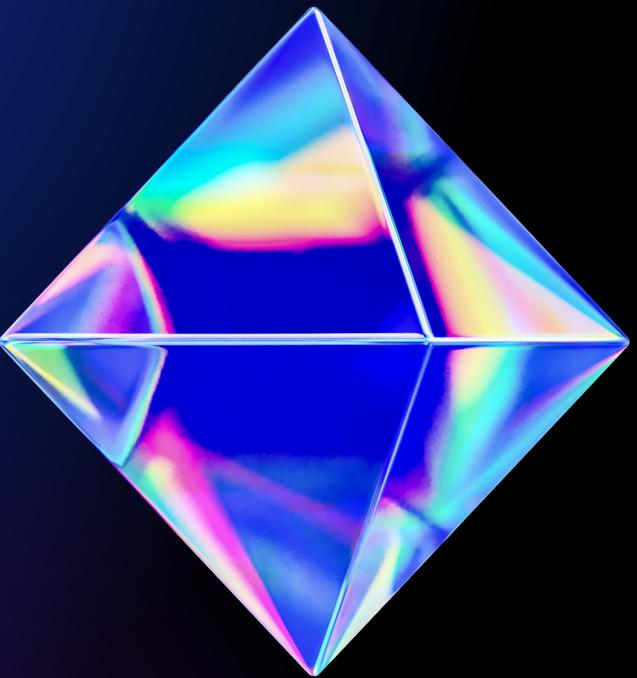

## Let the PDF's talk for you

Get data from FIR Pdfs in any regional language of India.

Get Started

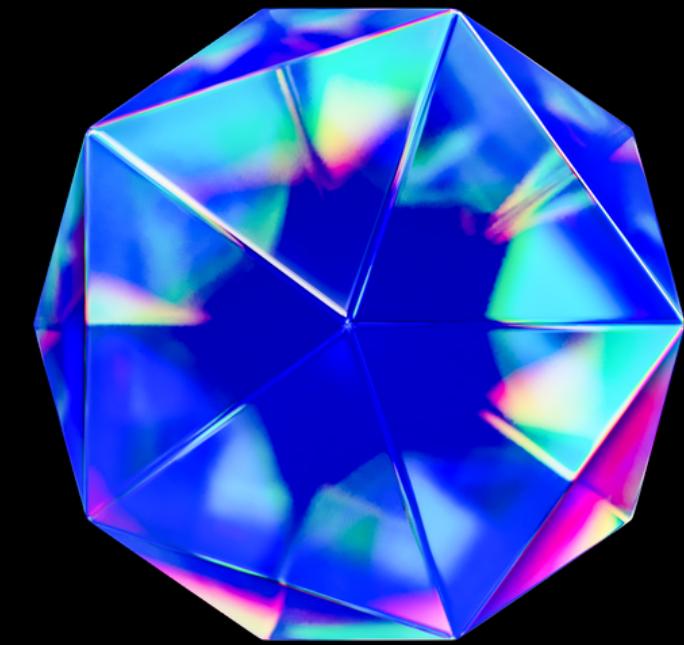

# Features

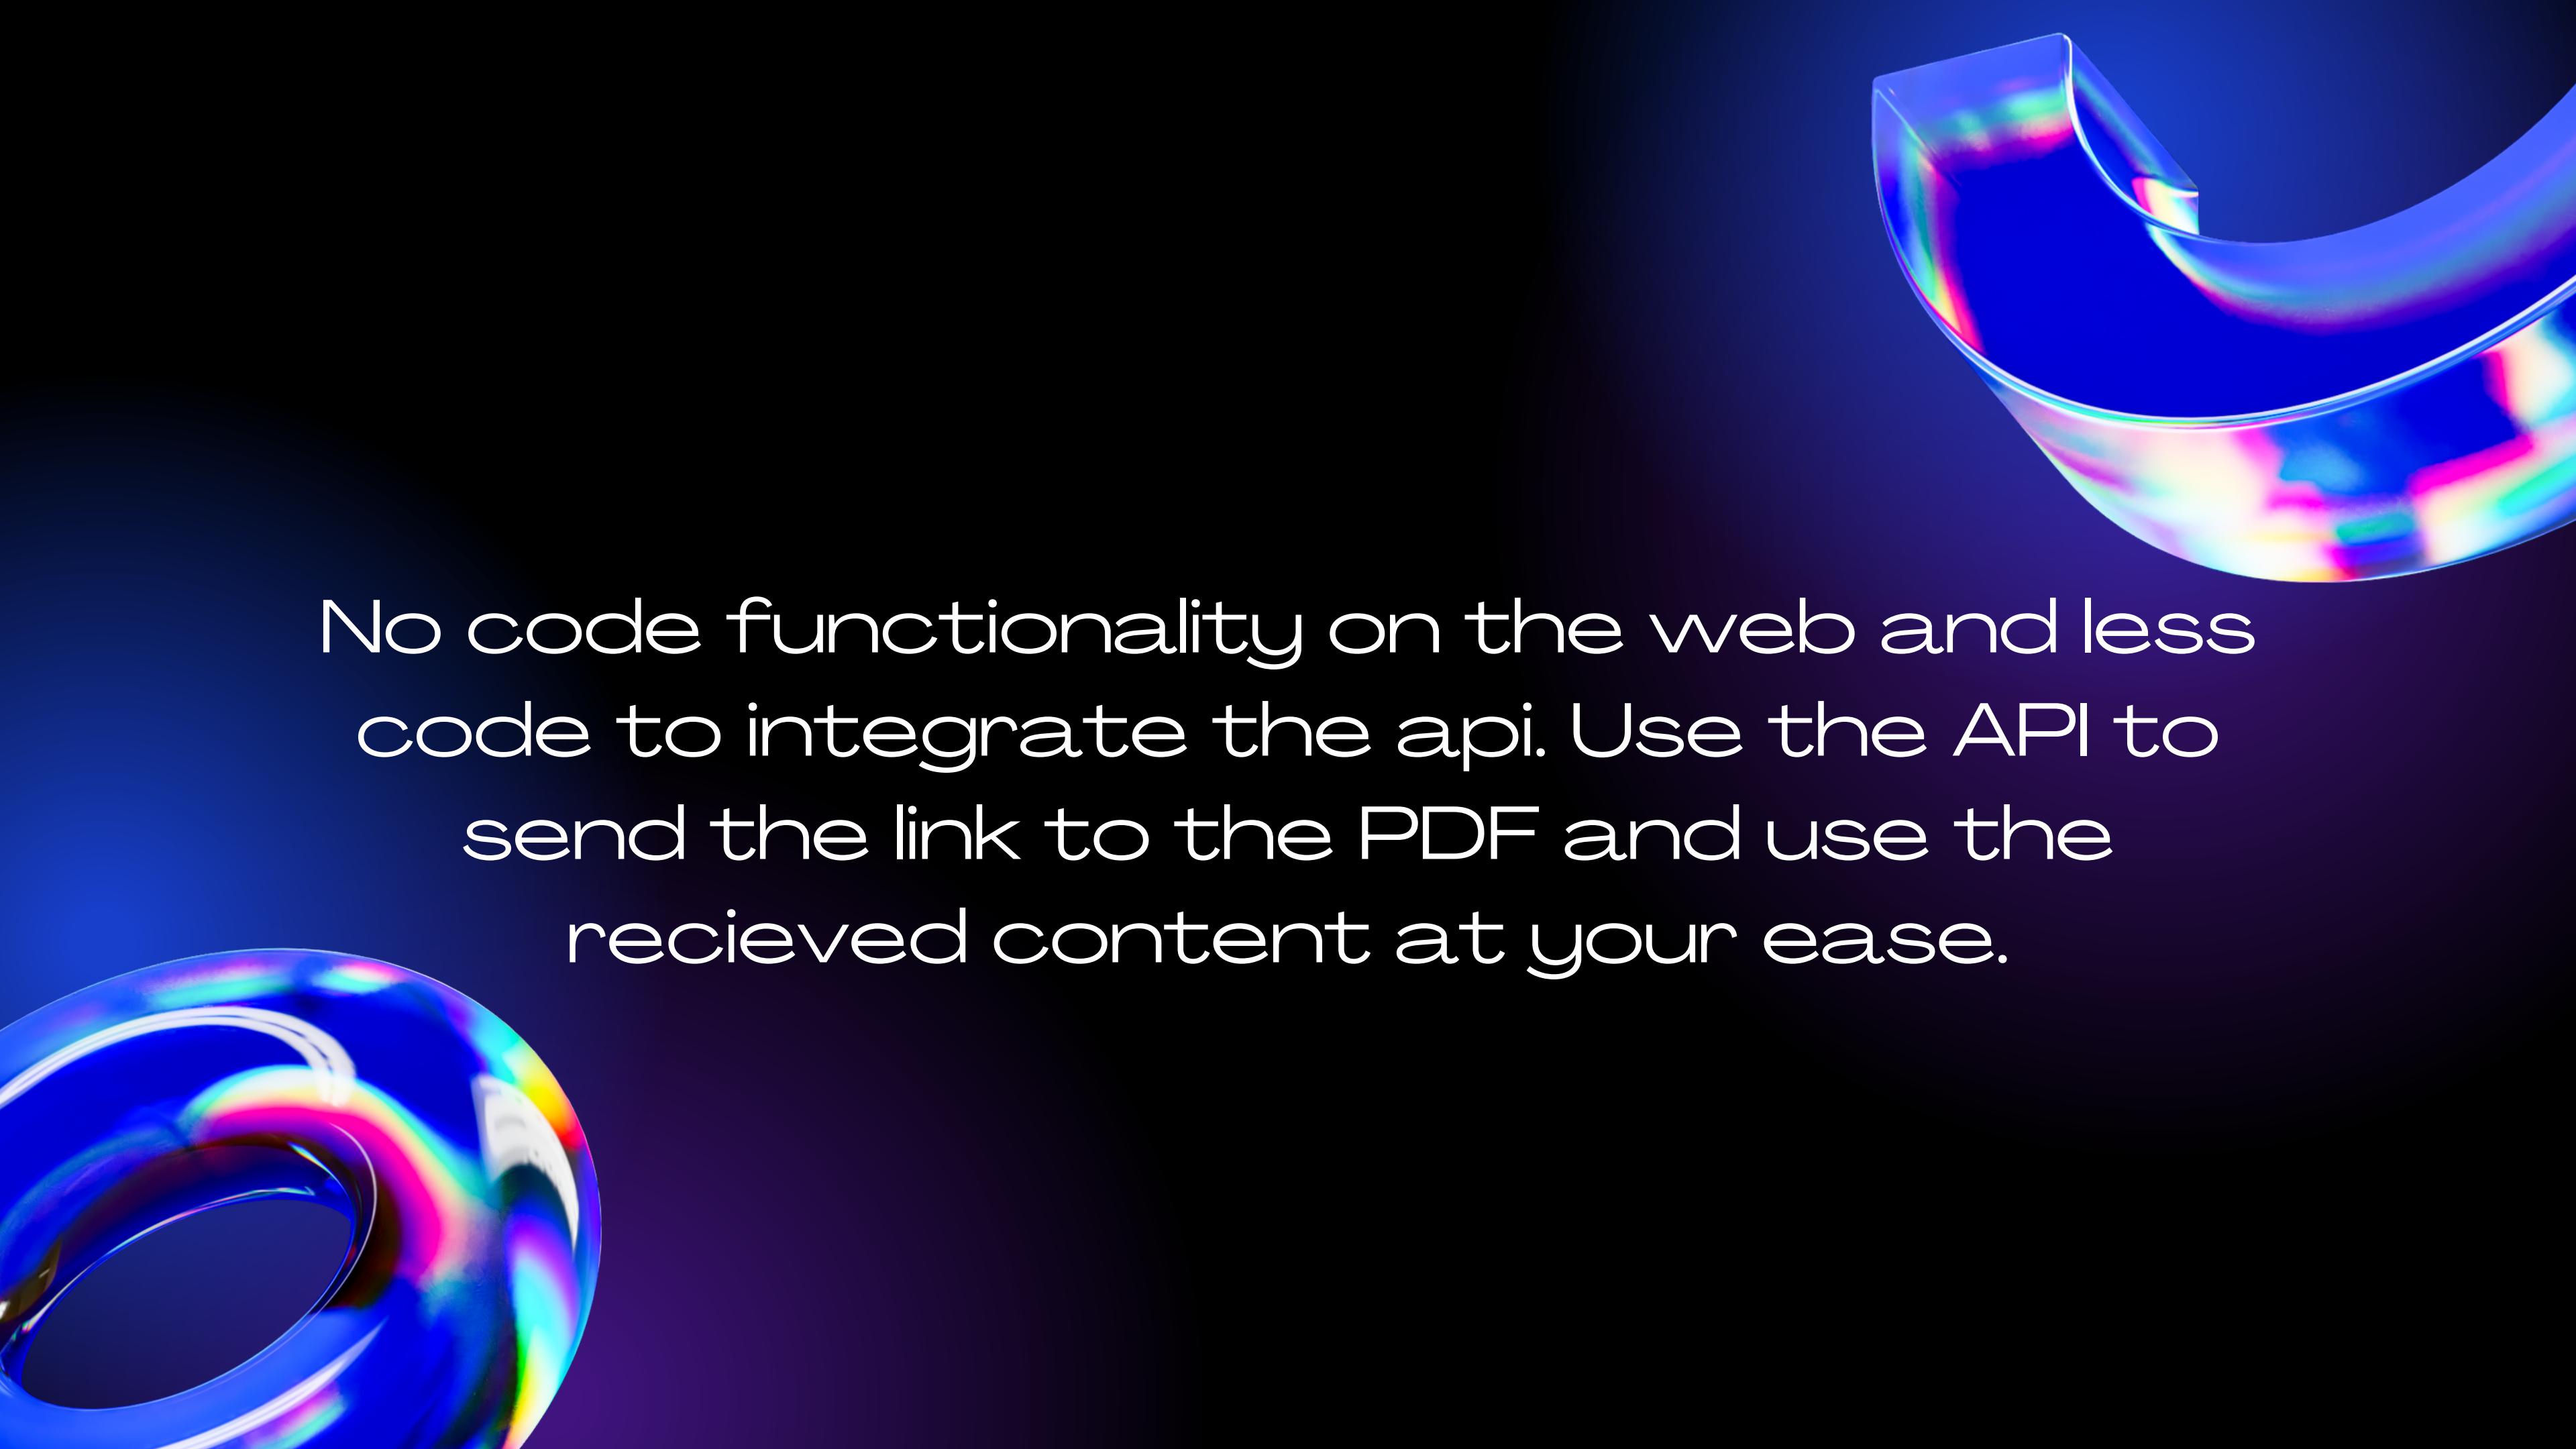

Easy to Use

Time Efficient

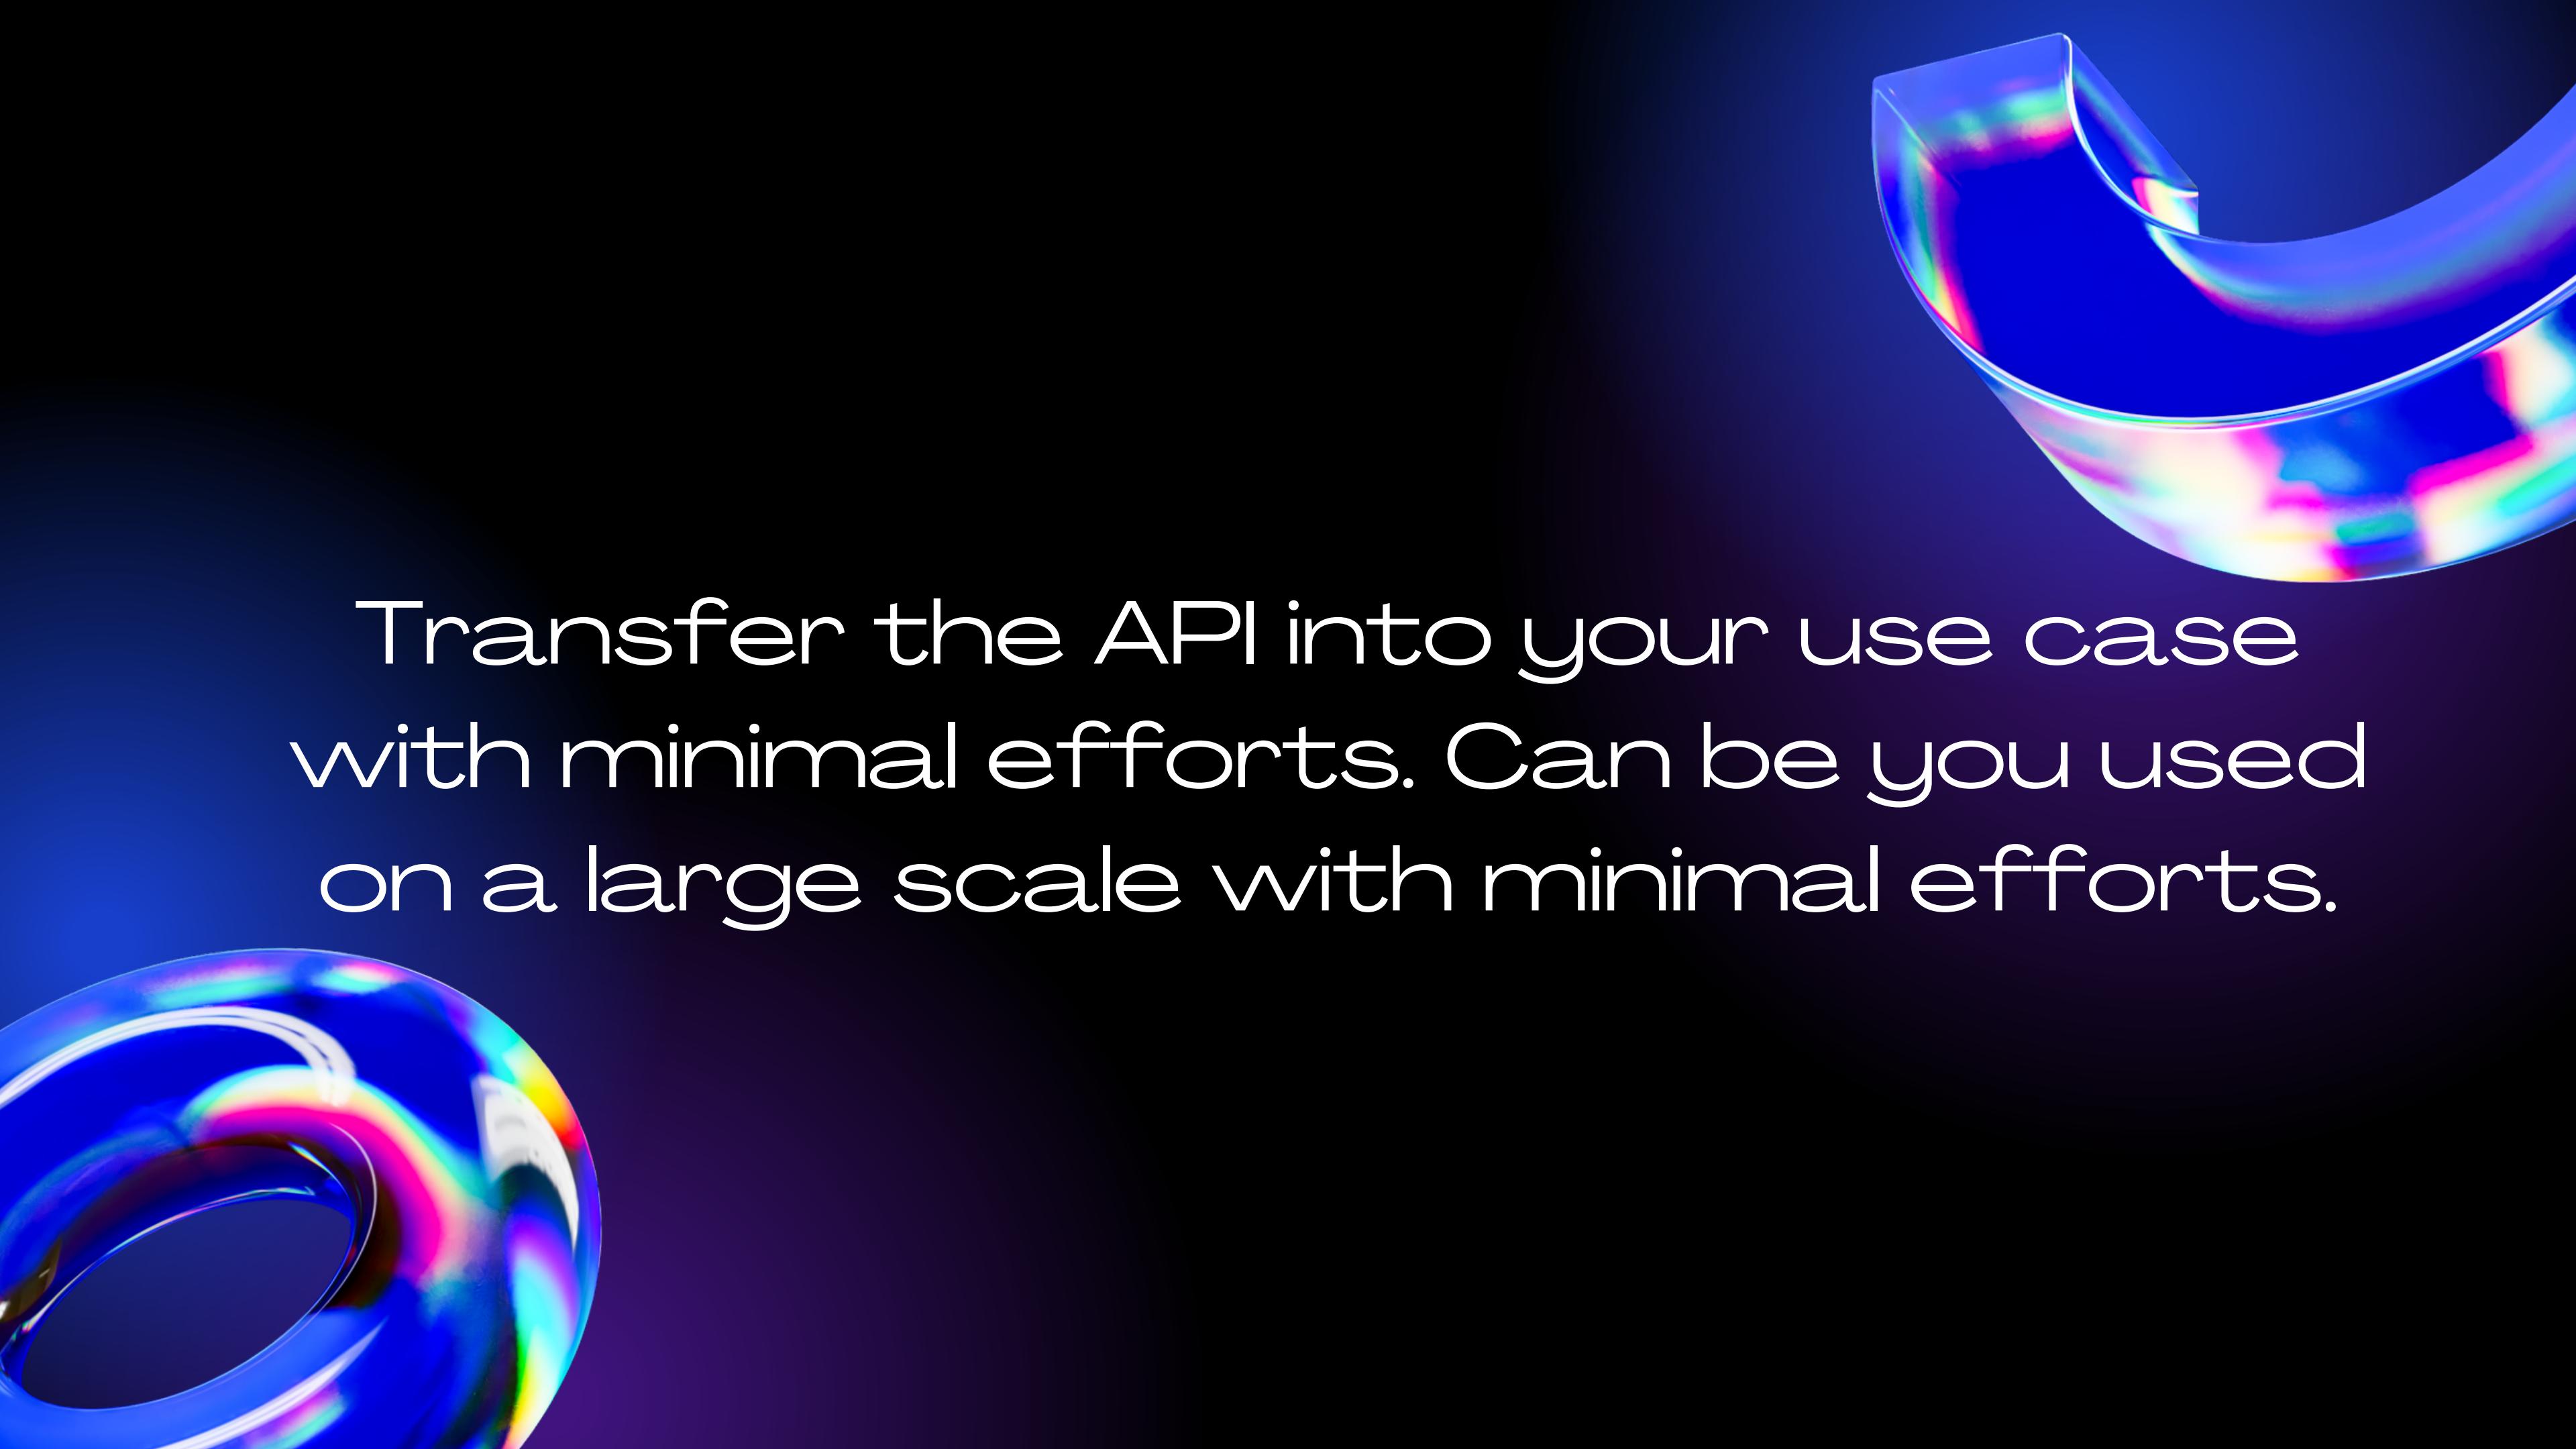

Customizable

No code functionality on the web and less code to integrate the api. Use the API to send the link to the PDF and use the received content at your ease.

Faster results for extracting the content  
on the website as well as with the api.  
Integrate the api with other applications  
to get content from multiple PDFs at a  
time.

Transfer the API into your use case  
with minimal efforts. Can be used  
on a large scale with minimal efforts.

# Build

## Front

- Html, CSS

## Back

- Python
- Flask

## Model

- Pypdf2
